PERSONAL PROJECTS

- **Yelp Camp - Campground review web application**   *2023*

  I have hands-on experience in developing a dynamic campground review web application called YelpCamp.

  - Tools & technologies used: HTML, CSS, JavaScript, Node.js, Express, MongoDB, Passport.js, Bootstrap, Cloudinary, Mapbox, and Render
  - I successfully implemented features such as user authentication, CRUD operations for campgrounds and comments, image uploads using Cloudinary, and incorporated interactive maps through Mapbox. This project not only showcases my proficiency in full-stack web development but also highlights my ability to create user-friendly interfaces with responsive design.

- **Employee Performance and Leave Analysis using PowerBI**   *2022*

  Led a comprehensive HR Analytics project aimed at optimizing human resources processes within an organization.

  - Tools & technologies used: powerBI, MS Excel
  - Gathered and integrated diverse HR-related data sources, including employee records, performance metrics, and attendance logs. Developed interactive and visually appealing PowerBI dashboards highlighting key HR metrics, such as employee performance, attrition rates, and recruitment efficiency. Customized reports for HR managers and executives, enabling data-driven decision-making in areas such as recruitment, training, and employee development.
